

CASTELLO TORRI DEL BALIO PEPOLI RESORT

by Sònia Graupera

This is the most spectacular hotel I have ever seen and ever slept in. It's an old castle completely renovated and with the incredible location on the top of a hill and overlooking the Mount Cofano you will have an incredible view from any of the four corners of the hotel. You have the feeling of being transported to another era, to the Middle Ages and you begin to believe in princesses and dragons, a reality in this incredible refurbished structure.

Thanks to the elegant restoration work, loyal to the original watch-tower structure, the rooms provide some of the best views in Sicily. The warm decoration in the rooms, each unique, but all furnished in neo-Gothic style with prized fabrics, reflect the history of the palace without forsaking modern comforts which include private bathroom, air conditioning, satellite TV, telephone, and mini-bar.

Torri Pepoli is an ideal and exclusive location where an organizer can host meetings and incentives, work gatherings and company presentations. In addition gala dinners, overnight stays and longer holidays are of course all available. The meeting rooms have been entirely renovated without losing the original features

and are located in a quiet and intimate area of the castle.

Even the dining at Torri Pepoli is an experience not only for the quality of the meals and great cuisine, but also for the delightful dining room, built within the ancient stone walls and embellished with attractive decorations.

Designed for working lunches, gala dinners, cocktail parties and buffets, the restaurant also boasts a relaxing bar area. It's really the perfect place to enjoy excellent regional cooking, accompanied by the area's best wines and to discover ancient family recipes.

Due to the ideal weather that Erice enjoys the whole year, drinks and food can be enjoyed outdoors, overlooking the Mediterranean Sea. The lush gardens, protected by tall, crenulated walls, are perfect for exclusive receptions and ceremonies, as well as relaxing strolls in the heart of nature, peace and tranquillity. Enjoy some of the traditional pastries made according to nuns' ancient recipes in this place that abounds in magic and leaves the visitor with an indelible souvenir.

As a world traveller you must visit Torre Pepoli at least once in this lifetime. A unique experience and great memories are for certain.
